

Group Footers in the Free Form Report Section

The free form report has Report Footers and Page Footers. To show the Report Footers and Page Footers, select **Report > Headers and Footers > select Show Both** for Page and Report Footers. Sometimes a group footer is needed. Brio provides a group footer, but it is not located in an obvious place. A benefit of group footers is you can place additional text into the footer.

Below is a picture of a simple report with 2 Group Headings, Year and Store Name.

The screenshot displays a report with three data tables. Each table is preceded by a group header. The first table is for the year 1999, the second for Super BMW Westwood, and the third for www.downtownbmw.com. Each table has three columns: Product Line, Amount Sales, and Unit Sales. The data is as follows:

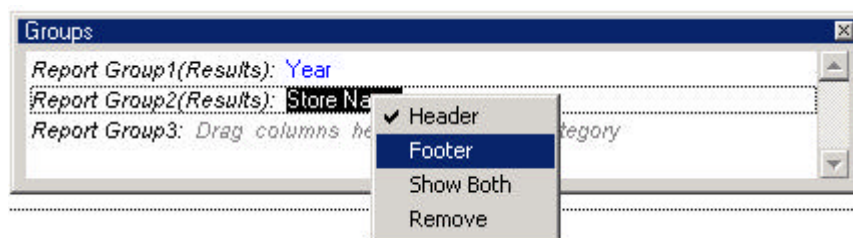

Product Line	Amount Sales	Unit Sales
Books	3,037,639.87207	157020
Videos	825,360.44299	42703
Music	1,670,554.04413	103730

Product Line	Amount Sales	Unit Sales
Books	3,428,113.69012	142332
Videos	675,651.26428	33318
Music	1,098,619.37158	74927

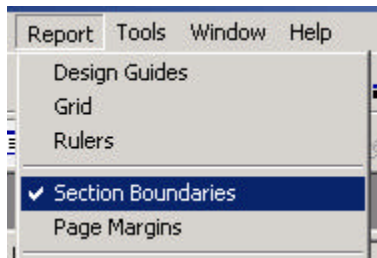

Product Line	Amount Sales	Unit Sales
Books	22,275,900.46924	451420
Videos	2,965,656.93091	63351
Music	2,643,509.31836	79541

Below the tables, the report configuration is visible. The Group Outliner shows: Report Group1(Results): Year; Report Group2(Results): Store Name; Report Group3: Drag columns here to create a category. The Table Dimensions are Product Line, and the Table Facts are Amount Sales and Unit Sales.

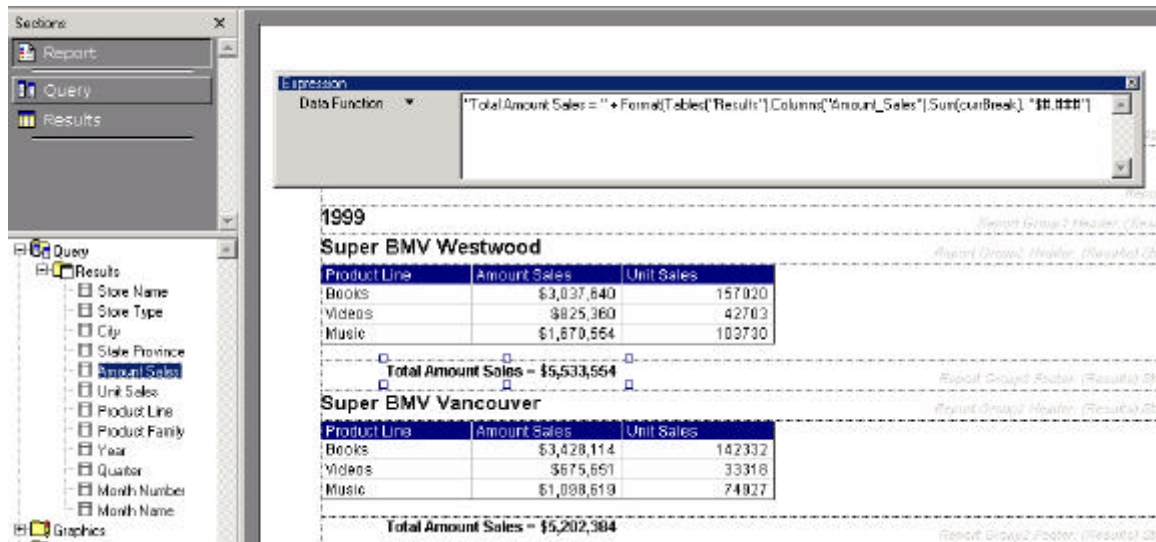

To add a group header, select the field in the Group Outliner > Right Click > select Footer.

The group footer will appear. Make sure you have Report > Sections Boundaries selected so you can see the group footer.

Now you can drag a field from the lower left catalog section and drag it to the group footer area. You can also add text, or modify the field using the expression line. The example below shows adding the Amount Sales field. It gives the total amount sales for that group as well as adds text and formatting.

NOTE: This Newscast was tested on Brio R6.2.2.53

Cabri Ltd. is a training company, distinguished by our in-depth knowledge of data warehouse query tools and industry insight. We specialize in product training, installation and custom course development for communication, manufacturing, e-business and public agency clients. Our focus is providing customers with innovative solutions and "value-added" approaches for training and product implementation.

Cabri Ltd. provides high quality training and consulting services at competitive prices. We maintain the highest standards of integrity with our customers and employees, priding ourselves in the quality training and customization services offered by our staff of trainers and developers.
