

Footers in a Free Form Report

Are you aware of the 3 types of footers available in the Free Form Report section? The 3 types of footers include the page footer, report footer and group footer. Most people are aware of the page and report footers, but forget about the group footer. Using the Group Footer is helpful when you want totals that float within the body of the report.

To see the footers, turn on the **Section Boundaries** in the Report Drop down menu.

Again, using the Report Drop down menu, turn on Headers and Footers and select both "Show Both" for the Report and Page Headers and Footers.

To see the Group footers go to the Group Outliner, select the Group item > Right click for the speed menu and select Footer.
