

Calling Brio via the Command Line

On Windows platforms, you can launch BrioQuery from the command line. To run BrioQuery from the command line select:

Start menu > Run > "C:\Program Files\Brio\BrioQuery\Program\briquiry.exe"

There are 3 parameters you can add to the command line (that I could find. There may be more). They are:

- javascriptcmd (runs a single JavaScript command)
- jscript (runs a complete script containing JavaScript commands)
- nosplash (suppresses Brio's startup splash screen)

Examples:

1. To start Brio from the command line without Brio's startup splash panel use:

```
"C:\Program Files\Brio\BrioQuery\Program\briquiry.exe" -nosplash
```

2. To start Brio from the command line and run a JavaScript command, which opens a document, called "**briodoc.bqy**"

```
"C:\Program Files\Brio\BrioQuery\Program\briquiry.exe" -javascriptcmd "Application.Documents.Open ("d:\\temp\\briodoc.bqy") "
```

3. To start Brio from the command line and run multiple JavaScript command, which opens a document, called “**briodoc.bqy**”, processes, then activates the Pivot section. Notice that the commands are separated by semicolons (;).

```
"C:\Program Files\Brio\BrioQuery\Program\brioqry.exe"  
-jscriptcmd "Application.Documents.Open  
("d:\\temp\\briodoc.bqy");  
ActiveDocument.Sections["Query"].Process();  
ActiveDocument.Sections["Pivot"].Activate() "
```

4. To start Brio from the command line and run a JavaScript script called “**sample.script**”. The JavaScript scripts can be created in Notepad. A script is a group of JavaScript commands.

```
"C:\Program Files\Brio\BrioQuery\Program\brioqry.exe"  
-jscript "c:\sample.script"
```

NOTE: This Newscast was tested on Brio R6.6.0.51

Cabri Ltd. is a training company, distinguished by our in-depth knowledge of data warehouse query tools and industry insight. We specialize in product training, installation and custom course development for communication, manufacturing, e-business and public agency clients. Our focus is providing customers with innovative solutions and "value-added" approaches for training and product implementation.

Cabri Ltd. provides high quality training and consulting services at competitive prices. We maintain the highest standards of integrity with our customers and employees, priding ourselves in the quality training and customization services offered by our staff of trainers and developers.
